Battle of the Warriors

84 11 9

Chapter 1 by Sam I am

This was it. The time had finally come. The Story War had officially begun. Several different writers, big and small, were preparing for battle. It was every man for himself. Joakim, Phantim, Sayaka, Unkie, and Brock were the people who were most likely going to win. But the smaller accounts were not going down without a fight. N8, Techno, Totally Olive, Nekomata, FallenAngel, and many others were not going down easily. This is how the Story War began

Chapter 2 by Sinister

The unsheathing of the words was heard, ringing across hilltops and valley's. The day turned to night, and the night turned to something even darker than can be imagined. But you imagined it... so it's real. The fonts were clashing as heatedly as a supernova realizing its potential to go full retard. It sucked in on itself, imploding in an array of colors that only space itself could pretend had enough vivid hues to explain this occasion in full detail. Chapter 3 by Christopher

It became apparent by chapter 3 that the war was not just a game. The death count was well over 10. The letter e was always the first to go.

Sub stories broke out depicting various points of the battle. Some were said to have gone insane by the sheer insistency of the keyboards clicking. Like hamsters in new cage bedding.

New heroes, however, were discovered. Chants and hope rose up amongst the onlookers. Few remained and none thought they could last another chapter.

Chapter 4 by Saranya ~ HEROES OF LIMBO (PM me to join!)

Although the remaining writers who were participating in the Story Wars could barely press the letters on their keyboards, and many of those who had competed in the Story Wars had developed carpal tunnel syndrome, many advertisements and commercials everywhere fueled more delirious writers to write and write, write and write, and then write some more. These new writers were not going down without a fight. One small- town writer, Sam I am, had risen above many of the large, popular writers. All feared him, for his ability to write stupendous stories was unique in a way that transfixed future writers for many generations to come.
